

Installation process for Wildlife Counts

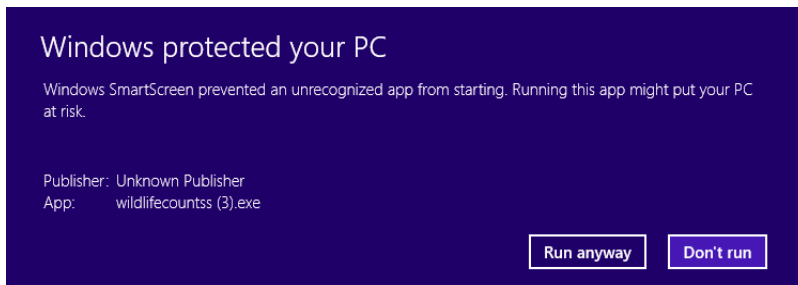

1) From WildlifeCounts.com web site, select [Download]. The program will be downloaded in the lower left corner of your screen.

2) Click on the Wildlifecountss.exe file and open it. You may see the following security banner.

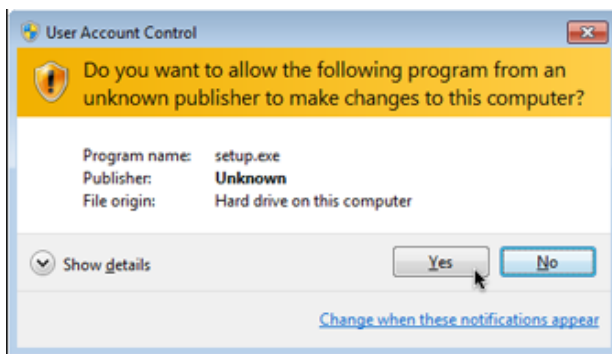

If you see this banner, click on [More Info] and you will see the following banner.

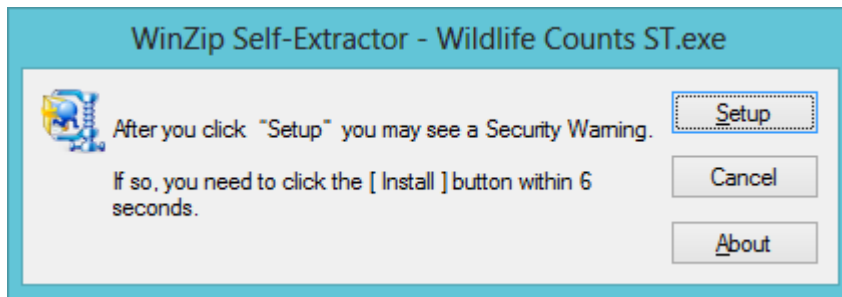

Click on [Run anyway].

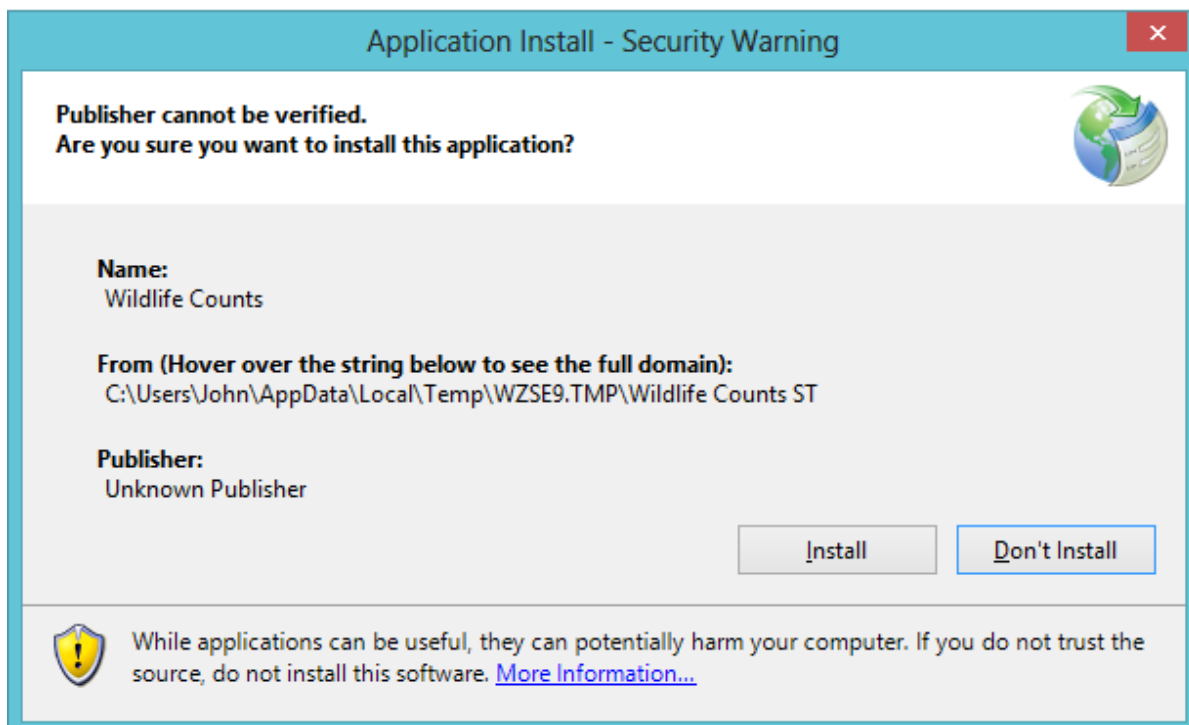

3) You should see the following message, and answer [Yes].

4) You will see the following message. You will click [Setup] .

5) When you see this Message Box, you have 6 seconds to click [Install] .

6) If you click [Install] within 6 seconds, the program will finish the install process.

7) If you fail to click [Install] within 6 seconds, you will get an error message and the Wildlife Counts program will not be installed. Then go to your File Explorer and go to Downloads. Find the Wildlifecountss.exe file. Double click on this file and start the install process again.
